Sunday was the anniversary of the founding of the Knights of Pythias in America 41 years ago. In commemoration of this event the Knights in Winnsboro assembled at the Presbyterian church Sunday evening, at which service Rev. S. C. Byrd had been invited to preach. The preacher took for his text John, 15:14: "Ye are my friends, if ye do whatsoever I command you." The sermon was a very thoughtful one indeed, emphasizing the need for human friendships which are but typical of the eternal friendship in Christ, and was delivered in a most earnest and impressive manner.

Court Proceedings.
The court of general sessions convened Monday morning at 10 o'clock with his honor Judge Purdy presiding. Solicitor Henry and Stenographer McCaw were both at their posts. All the grand jurors were present except J. E. Seigler, who was excused. J. W. Coan was drawn in his stead.

CHARGE TO GRAND JURY.
Judge Purdy made a brief but forceful charge to the grand jury. Their duty, he said, was not only to report on the indictments that would be handed to them, but also to look into all matters involving the moral or financial well-being of the county. It was his observation that there was less immorality than in the people of this state than in any other state in the Union; however, there were any instances of such, it was the grand jury's duty to bring the guilty ones to account. By virtue of their position they are the supervisors of the offices of the county, and they would best serve the interests of those whom they represented and do a great kindness to the officers themselves by exercising a close diligence over them in the performance of their official duties. The supervisor's office is the most important in the county and is one that requires a man of business, one who has made a success of his own business affairs. It is a more difficult matter to manage the affairs of a county than to act as president of a bank. A failure to have this important office filled properly may cause a wreck in a county's financial condition. The offices of treasurer and clerk of court and the other offices as well should be kept in the best possible manner. If in their examination of any of the offices, there should appear any carelessness or dereliction, it was their business to point out to the officers so as to prevent any trouble in the future.

Grand jurors themselves should be men of affairs, men whose presence here represents a sacrifice of time, men who will protect the interests of the county in every way by seeing that any wrong-doing is corrected. This duty devolves specifically upon them and it is their duty to see that these matters are attended to in a businesslike way. What is everybody's business is nobody's business.

The grand jury is busily engaged with the large number of indictments before them. They have found the following

TRUE BILLS.
The State vs. Edward Neil, murder.

The State vs. David Peary, assault and battery with intent to kill.

The State vs. William Wilson and Bailes Pickens, disposing of property under lien.

The State vs. James McCullough, alias John Mobley, larceny. Plead guilty. Sentence of court: to pay a fine of one dollar and to serve the county or state one year.

The State vs. John Newbell, assault and battery with intent to ravish.

The State vs. Holbert Johnson, murder.

The State vs. David Dennis, violation of dispensary law. Found guilty. Sentence: to pay a fine of \$100 or to serve six months on the chain gang or in the penitentiary.

Murray's Horehound, Mullen and Tar will cure your cough. Large bottle for 25c.

Letter to Jno. W. Lyles.

Dear Sir: We manage to get some fun out of paint. J. H. Kohlmeier, Grove City, Pa., put in Devoe. Along came a salesman of somebody else's paint before ours had got there. Salesman said ours was short-measure. Kohlmeier weakened hung fire and flopped; stopped ours and took his. It was our turn now. We emptied our can into his and his into ours. The short-measure was his, not ours; and we kept our man. And, ever since then, that paint-manufacturer gives full-measure; his paint is not pure, but his gallons contains four quarts. Go by the name; and the name to go by is Devoe lead-and-zinc. Yours truly
F. W. DEVOE & Co
John H. McMaster & Co. sell our paint,
Ashford Ferry.

Mr. Editor: Please allow me space to notify the traveling public that there is no way to cross Broad River at Ashford ferry with safety. The flat and bateau are both rotten and unsafe. I have already bought two bateaus with my own money in order to keep the ferry running, but as the counties have not paid me for the bateaus or services for the last three months I am not able to keep up a public ferry at my own expense. The business at Strother with the depot and quarry, together with the great throughfare through the two counties, make it necessary for a good steel bridge at this place. I hope some one will take the matter up.
